

ACADEMIC DUAL CERTIFIED NUCLEAR MEDICINE PHYSICIAN AND DIAGNOSTIC RADIOLOGIST

A dual certified Nuclear Medicine/Diagnostic Radiology physician is required to join an academic practice group of 40 radiologists at the QEII Health Sciences Centre in Halifax, Nova Scotia. The candidate will be an FRCPC, or equivalent, in Diagnostic Radiology and Nuclear Medicine. Subspecialty training in Diagnostic Radiology would be an asset but is not required. A proven interest in Education and/or Research would also be an asset.

The QEII Health Sciences Centre is the largest tertiary care group of teaching hospitals in Atlantic Canada and is part of Nova Scotia Health. It is a large oncology referral centre and provides multi-organ transplant care for the Atlantic Provinces and is the core adult clinical teaching facility for Dalhousie University's Faculty of Medicine. There are active residency programs in Nuclear Medicine, Diagnostic Radiology, Neuroradiology, and Pediatric Radiology, with fellowship programs in Abdominal Imaging as well as Cardiothoracic, Interventional, Musculoskeletal, Neuroradiology, and Pediatric Radiology. There is a well-developed research infrastructure with opportunities to promote academic achievement.

The Nuclear Medicine section provides diagnostic and therapeutic services to the patients of the Maritime provinces. We provide PET/CT service for all of Nova Scotia with access to both Ga-68 and F-18 tracers, are refreshing out fleet of gamma cameras in 2024 and 2025 and are opening a dedicated therapy suite in 2024.

Halifax is the growing capital city of Nova Scotia in Canada's Maritime provinces. It is a popular summer vacation destination and home to several universities. Halifax is a medium sized city which offers a high quality of living.

All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority. Earliest start date will be July 1, 2024.

Interested individuals should send their curriculum vitae and the names and addresses of three referees to:

Dr. James Clarke
Head, Department of Diagnostic Radiology
